

2020/2021 Academic Year

Promoted by:

Eni

in collaboration with:

Eni Corporate University
Politecnico di Torino

Master of Science in Petroleum and Mining Engineering

The Eni project offers international students the possibility to receive a scholarship and other benefits to graduate from the Politecnico di Torino attending a Master of Science program in Petroleum and Mining Engineering (Petroleum Engineering path).

The project, promoted by the Politecnico di Torino and financed by Eni and Eni Corporate University, will offer for the 2020/2021 academic year up to 5 scholarships to international students, mainly from countries of interest for Eni (i.e. Angola, Mozambique, Ghana, Egypt, Kazakhstan and Indonesia).

The length of the course is 2 years full time and corresponds to 120 ECTS credits. All the courses are entirely held in English. The activities will begin in September 2020.

Requirements

To be eligible for admission in a Master of Science program, first you must hold a degree (Bachelor) awarded by an accredited foreign university after minimum 15 years of global schooling (including primary school, secondary school and university). In order to be admitted into the Master of Science in Petroleum and Mining Engineering, applicants must be in possess of a university degree equivalent to a Bachelor of Science degree of three or four years.

Application is open to students who:

- are not Italian citizens or are Italian citizens who are also in possess of another citizenship;
- have an adequate knowledge of the English language, demonstrated by an international certification (see the section "Minimum language requirements for admission" at the end of the document);
- have not already enrolled in a Master of Science program of the Politecnico di Torino before the 2020/2021 academic year;
- are not recipients of other scholarships, Italian or foreign.

Scholarships Selection Criteria

Applicants will be selected based on their previous academic career and on their Curriculum Vitae. Amount of the scholarship:

- the gross amount of the Eni project scholarship is 10.000 Euro per year (20.000 Euro for the complete period). The exact net sum is dependent upon the individual tax conditions of each student, which can be verified only upon the arrival of the student;
- the amount of the scholarship will not be increased in case the student will need more time to graduate than indicated;
- the allocation of the scholarship is dependent upon the submission, within 10 days from the arrival in Italy of the student, of the original documentation, which must correspond with the documentation attached to the online form (see the "Selection outcomes" section below);
- payment of the scholarship occurs periodically. The first installment is dependent upon the possession of the relevant documentation (residence permit, Italian fiscal code, and bank account in the name of the scholarship recipient), all obtainable upon arrival in Italy; for this reason, the first installment is not paid at the moment of arrival at the Politecnico di Torino, but in the course of the following month.

Requirements to maintain the scholarship

- given that it is not possible to combine the benefits received from more than one scholarship, students who are assigned another study grant while receiving the Eni project scholarship must promptly notify the Politecnico di Torino;
- payment of the scholarship will be suspended if the academic performance of the recipient does not meet required standards, that will be disclosed to the selected students.

How to Apply

To apply, students must, under the penalty of being excluded from the selection process, complete the application form for the admission to the academic programs of the Politecnico di Torino.

- **deadline:** 2.00 p.m. (Italian time) on May 4th, 2020.
- **method:** fill in the Politecnico di Torino online application form <https://didattica.polito.it/inte/en/home> by first registering and providing your biographical information, logging in and choosing your level and degree course, and selecting the Eni Project scholarship, and subsequently submitting the application. Students must also provide information on their previous educational career, language abilities and work experience, and they must attach the necessary documentation in pdf format. After having completed these steps, the application for a scholarship will be considered complete.

In order to select the Eni Project scholarship, please follow these steps:

- click on the "Add application" button on "Select your course" section of the application form;
- select the Master of Science program Petroleum and Mining Engineering (Petroleum Engineering path) and click on the "Confirm" button;
- click again on the "Add application" button on the "Select your course" section of the application form;
- select the Eni Project scholarship on the "Research and Academic Scholarships/Scholarship and Prizes" section and click on the "Confirm" button;
- save and submit your application.

The documentation indicated at https://didattica.polito.it/inte/en/apply_msc_step1_docs and listed below must be attached in pdf format to the on line application form:

- an official transcript of records (original or authenticated copy) issued by the registral of your university of origin;
- Curriculum Vitae, dated and signed (in english if possibile) - maximum 3 pages;
- English language certificate;
- Passport (or, for EU citizens, another official ID)/Residence permit for non EU citizens living in Italy;
- Bachelor Degree certificate (if already available);
- [optional] The description of the courses attended in the framework of the previous academic career;
- [optional] Letters of reference (2 maximum) and/or a personal introduction letter (written by the applicant), which may uploaded in the "Other Document" field of the application form in a single file.

We emphasise that the data shown in the documents must coincide with those inserted in the online application form (with the exception of the material errors). Moreover, failure to attach even one of the above documents will result in exclusion from the selection process.

Selection Outcomes

Following the closure of the online application form, Politecnico di Torino submits to Eni Corporate University and Eni the applications of the students who have been deemed to be eligible for admission to the Master of Science program in Petroleum and Mining Engineering. The applications of the eligible students will be then evaluated by Eni Corporate University and Eni, which award the scholarships on the basis of the applicants' previous academic career and Curriculum Vitae, at its incontestable discretion.

Facilities

Tuition fees for Eni project students are covered by the project. scholarship recipients, together with the Master of Science in Petroleum and Mining Engineering course, will benefit from:

- one round trip air ticket from/to home country per year;
- an Italian language course, compulsory and free of charge;
- advice on lodging facilities, additional services offered to the students community (access to the Politecnico's libraries and computer laboratories, WI-FI (wireless LAN), etc.); scholarship recipients will also be entitled to all the services offered by the regional university student assistance organisation, Ente regionale per il Diritto allo Studio Universitario (EDISU Piemonte) at full fee: students canteen service, cultural and recreational activities, sports activities, libraries with lending service, etc. (for further information visit the Politecnico di Torino website, Campus Facilities section);
- assistance in obtaining an entry visa. For more information consult the Immigration Requirements section and the websites of the Italian Embassy or Consulate;
- assistance by the Stage and Job Placement Office for internship and employment.

In order to benefit from a reduction on the fees of the services offered by EDISU, students must provide an official declaration about:

- the composition of their family unit;
- the revenue generated abroad in 2019;
- the property and real estate assets generated abroad at December 31st, 2019.

These declarations, issued by the competent authorities of the foreign country where the family's income is generated, must be translated into Italian and certified by the Italian Embassy or Consulate.

Minimum Language Requirements for the Admission (https://didattica.polito.it/inte/en/apply_msc_lang)

IELTS International English Language Testing System http://www.ielts.org	Cambridge ESOL Examinations General English Exams http://www.cambridgeenglish.org/exams	TOEFL- ibt (Internet based test) Test of English as a Foreign Language - http://www.ets.org/toefl
5.5	Cambridge English: Preliminary (PET) pass with Distinction ≥ 90	≥ 72
