enipower

eni

**Production capacity**

CTE 3: electricity: 1179 MWe – Steam: 120 t/h

CTE Nord: electricity: 151 MWe – steam: 385 MWt

**Plant type**

CTE3: three combined cycles with natural gas, two of which are also adapted for off-gas use

CTE Nord: four turbines for steam recovery from the plant cracking

**Year the combined cycles became operational**

2005

**Fuels**

Natural gas

Petrochemical gas

**Products**

Electricity

Technological steam

**Other services and products**

Desalinated and demineralised water

**Eni companies served at the site**

Versalis and Syndial

**Address**

via Fermi, 4 - 72100 Brindisi (BR)
