

FROM DIFFERENT ENERGIES,
ONE UNIQUE ENERGY.

AGENDA

Tuesday 8

15.00 Boosting Supply Chain Development: the Procurement approach

16.00 Orizzonti – energies from the Mediterranean

16.30 Eni CCUS Strategy

17.00 Novara Solar Lab: Eni integrated facilities for a complete performance characterization of photovoltaic modules

Wednesday 9

10.30 Ravenna CCS phase 1: kickstarting CCUS in Italy

11.00 Eni's Future technologies and strategies in dialogue with Consumer Associations

12.00 Energy transition levers, alliances and industrial transformation: Versalis' Hoop® technology

12.30 Biodegradable and compostable materials: Novamont's innovative solutions for the transformation of the agricultural sector

14.00 Procurement model to foster new businesses and innovation

14.30 Working at Eni

15.00 Eniverse portfolio management and initiatives' funding
Enivibes: the first venture for asset integrity by Eniverse
TES: decarbonization and electrification of industrial processes
Gas Sensor Node: a new technology for the detection of fugitive methane emissions

17.00 Water lifecycle: optimized treatment and sustainable reuse

Thursday 10

10.00 Knowledge Management System in Eni: how to build our future on past knowledge

10.30 Energy Transition for High Schools

11.30 Seafloor observatory for Ravenna CCS phase 1 project: from design to development

12.00 Pioneering Fusion Energy: the role of Eni as global energy company

12.30 e-sploraTM: a suite of pipeline integrity technologies and deep dive on DeepSense service
e-siamTM: acoustic emission and vibration technology enabling continuous corrosion monitoring for tanks

FROM DIFFERENT ENERGIES,
ONE UNIQUE ENERGY.
