
Terms and Conditions of Sale of Enilive Schmiertechnik GmbH headquartered in Würzburg (11/25)

1. Scope of Application

These general terms and conditions of sale (hereinafter "TCS") apply – unless expressly agreed otherwise – to all transactions with buyers of the goods (hereinafter "Partner") of Enilive Schmiertechnik GmbH (hereinafter "Enilive"). These TCS shall apply exclusively. Any other conflicting or supplementary terms and conditions of a Partner ("GTC") will only form part of the contract to the extent that Enilive has expressly consented to their application. This requirement for consent shall apply in any case, for example even if Enilive carries out the delivery to Partner with full knowledge of Partner's general terms and conditions or in case Partner makes explicit reference to the application of its GTC.

2. Formation of Contract

(1) Enilive's offers are subject to change. Test data and samples only provide non-binding information on the quality of the goods, unless an equivalent quality has been expressly assured.

(2) The order of the goods by Partner shall be deemed to be a binding offer of a contract. Unless stated otherwise in the order, Enilive is free to accept this offer of a contract within three weeks of its receipt by Enilive. The acceptance may be given in writing (e.g. by order confirmation) or it may be expressed through delivery of the goods to Partner.

3. Prices

(1) Enilive's prices are net prices plus customs duties, taxes and levies, and in particular, free of statutory turnover tax.

(2) Unless agreed otherwise, the goods shall be invoiced at Enilive's prices applicable on the date of delivery.

(3) Unless agreed otherwise, the purchase price includes freight-paid delivery. With freight-paid delivery, the agreed purchase price shall only apply on condition of unimpeded transport.

(4) If a delivery service is commissioned to transport the ordered goods to countries outside the EU, additional customs duties or taxes may be incurred, which are to be borne by the buyer.

(5) In the event of a significant increase in the prices of Enilive's sub-suppliers or in Enilive's production costs after the conclusion of the contract, Enilive shall be entitled to ask for the price to be adjusted. If no agreement is reached, Enilive shall be entitled to withdraw from the contract to the exclusion of any claims for damages. The foregoing does not apply if the non-agreement is due to the fact that Enilive have requested an inappropriate adjustment of the price.

4. Terms of Payment

(1) Partner is required to pay the invoice amount without any deduction, upon receipt of the invoice and delivery of the goods. However, Enilive shall be entitled at any time, also within the framework of an ongoing business relationship, to make a delivery in whole or in part only against advance payment. Enilive shall declare such a corresponding reservation at the latest with the order confirmation.

(2) The agreed payment terms will – unless agreed otherwise – be calculated from the delivery date.

(3) In the event of culpable default on payment, Enilive shall be entitled to declare all payments and services owed by Partner to be due immediately. In such cases, Enilive shall not be obliged to make further deliveries unless in the event that Partner was only in default with a payment on a single occasion.

(4) Upon expiry of the agreed payment period, Partner shall be in default. During the period of default, interest shall be charged on the purchase price at the statutory default interest rate applicable at the time. Enilive reserves the right to claim for further damages due to the late payment. With regard to business customers, Enilive's right to commercial default interest (section 353 of the German Commercial Code) remains unaffected. Enilive's other legal rights arising from any delayed payments shall not be affected thereby.

(5) Partner shall only be entitled to rights of set-off or retention insofar as its claim has been established by a court or is undisputed. In the event of defects in the delivery, Partner's rights, in particular those pursuant to paragraph 10 of the present TCS, remain unaffected.

(6) Enilive's sales representatives are not authorised to collect debts. Payments made by Partner to such personnel do not have debt-discharging effect for Partner.

5. Call-Offs and Acceptances

Call-offs and acceptances must take place on the agreed dates. In commercial transactions, in the case of late call-off or late acceptance, Enilive shall, without issuing a reminder or setting a grace period, be entitled to either deliver the quantity not called-off or not accepted to the buyer at the buyer's expense and risk or to take it into stock and to invoice it as delivered or to reject the delivery.

6. Delivery and Transport

(1) Shipment takes place on the buyer's account. Partner shall bear the risk of transport also in the case of freight-paid delivery, or deliveries under use of Enilive's vehicles and Enilive's driving personnel. For all deliveries, the risk shall pass to Partner at the time Enilive delivers the goods to the railway or the carrier, or in the case, the goods are dispatched in Enilive's own vehicle, to Enilive's driving personnel, but at the latest when the goods leave the dispatch point (e.g. refinery, tank farm).

(2) Enilive shall not be responsible for the full utilisation of the enclosure or of the loading weight. In the absence of specific instructions, Enilive will decide based on the declaration to the best of Enilive's knowledge upon the cheapest means of shipping, the transport time and the transport route.

(3) If Partner provides the means of transport, such shall be provided ready for filling and freight-paid. Its use shall be at the risk of the buyer. Enilive, or the loading point, are not obliged to check the cleanliness and suitability of the means of transport provided by Partner. Any damage resulting from defects in the means of

transport shall be borne by Partner. The same applies to any failure to comply with the statutory regulations for loading and transport.

(4) Enclosure provided on loan shall remain Enilive's property even if a deposit is made. Partner shall bear all risk of loss or damage until the return of the enclosure to the place of dispatch point or at a point designated by Enilive, including in cases of force majeure.

(5) Enilive's loaned enclosures may only be utilised for the transport and loading of goods supplied by Enilive, otherwise Enilive shall be entitled to reclaim them immediately. The containers must be returned to the dispatch point or to a point designated by Enilive immediately after emptying, freight and costs paid, in a clean, undamaged condition and in strict accordance with the markings and numbers used by Enilive. If these conditions are not met, Enilive may have the enclosures cleaned and, in the event of damage, also have them repaired at the buyer's expense.

(6) The buyer has no right to retain Enilive's loaned enclosures.

7. Determination of Quantities

The weight or volume determined by the dispatch warehouse or plant by weighing or measuring shall apply for the determination of the quantity. In the case of delivery of partial quantities from road tankers, the data of the calibrated measuring device shall apply.

8. Delivery Disturbances

(1) Enilive shall be entitled to make partial deliveries.

(2) Enilive shall only be obliged to deliver from Enilive's own production and the quantities actually available to Enilive.

(3) Enilive shall not assume any risk of procurement. In the event of force majeure or in the case of other extraordinary events beyond Enilive's control or beyond the control of Enilive's suppliers (e.g. war, warlike situations, uprisings, closure of usual transport routes, interruption or closure of pipelines or other hindrances or delays with the supply, lack of raw materials, operational disruptions at the refinery or at the production plant, strikes) which make delivery impossible or substantially more difficult or do not allow complete or timely delivery, Enilive may suspend or restrict delivery for the duration of the obstruction, even if Enilive was already in default. The same shall also apply if, due to market-related conditions, Enilive is required to change the refinery throughput and thus the fulfilment of the delivery becomes unreasonable for Enilive as a result. In addition, Enilive shall also be entitled, at Enilive's discretion, to withdraw from the contract in whole or in part, either immediately or at a later date. This shall also apply in the event of non-delivery by Enilive's sub-suppliers. Partner may withdraw from the contract if, in spite of his request, Enilive has not declared Enilive's withdrawal from the contract or assured the delivery within a defined appropriate period.

(4) If the events described above lead to a significant increase in Enilive's production costs, Enilive shall be entitled to increase the price accordingly – even if a fixed price has been agreed. Partner may refuse the price increase or withdraw from the contract if the acceptance of the additional costs would represent an unreasonable hardship for him.

9. Notice of Defects and Warranty Claims

(1) Variations in the quality and appearance of the goods that are customary in the trade and technically unavoidable, shall not entitle the customer to give notice of defects. The goods may be modified and supplemented within the scope of the DIN standard, in particular due to technical progress.

(2) Any obvious or hidden defects, or the absence of assured properties, must be reported to Enilive in writing immediately and without undue delay, but no later than 7 days after discovery. This shall also apply in the event that the goods are not delivered directly to Partner, but to a third party.

(3) A further requirement for making a complaint is that the goods are still unmixed and Enilive is able to inspect them. Samples will only be deemed to be evidence of the actual properties of the goods complained if Enilive has been given the opportunity to satisfy itself that the sample has been taken properly. The test sample must be at least 1 kg.

(4) Partner shall fulfil its contractual obligations, in particular the agreed terms of payment, in the event of a defective delivery. If a complaint is made, Partner may only withhold payment by an amount that is appropriate, considering the defect complained of.

(5) The limitation period for claims for defects by Partner is one year. The period begins with the delivery of the goods. Instead of the above period, the statutory limitation periods shall apply in the following cases:

- in the case of liability due to intent,
- in the case of fraudulent concealment of a defect,
- in the case of assumption of a guarantee,
- or claims arising from injury to life, body or health,
- for claims for other damages based on an wilful misconduct or grossly negligent breach of duty by Enilive or by Enilive's legal representatives or agents.

(6) Enilive shall not be liable for the fact that the delivered products meet the legal requirements existing outside Germany. Therefore, the Partner is obliged to ensure that the products delivered by Enilive meet the legal requirements at their destination, provided that it is outside of Germany. Such requirements may arise in particular from product-related legal requirements for labeling, packaging, registration obligations (e.g. chemical standards), from accident prevention and occupational safety regulations, safety standards, legal prohibitions on the use of substances hazardous to health and regulations of a similar nature.

10. Liability, Damages

(1) In principle, Enilive shall be liable for damages in accordance with the statutory provisions if a damage is based on intent, gross negligence or simple negligent breach of a material contractual obligation.

(2) In the event of ordinary negligent breach of a material contractual obligation, Enilive's liability is limited to the reimbursement of the loss, which was typically foreseeable at the time the contract was formed. In the case of an ordinary negligent breach of a non-essential obligation, Enilive's liability is excluded. This also applies to the personal liability of Enilive's employees, representatives and agents. The rules on the legal burden of proof are not affected by these TCS.

(3) The above limitations on liability and exclusions do not apply insofar as Enilive's liability is mandatory by law (e.g. under the Product Liability Act), for personal injury, injury to health or death, non-compliance with guarantees, fraudulent concealment of defects or intent.

(4) In the event of ordinary negligence, Enilive shall not be liable for indirect financial losses or consequential losses, such as loss of profits or interruptions to business, and otherwise limited to no more than 20% of the order value (including customs charges, taxes and duties, specifically statutory VAT).

11. Insurance

Any insurance shall only be taken out by Enilive at the express request of the buyer.

12. Unloading Costs

(1) Unloading, discharging and other costs incurred in addition to freight, shall be paid by the buyer.

(2) In the case of water loading, any surcharges for reduced or shallow loading, or frost, shall be borne by Partner. The conditions set by the authorities for loading and discharging works shall apply. Demurrage costs shall be paid by Partner.

13. Energy Taxes and Duties

Partner is obliged to comply with all the tax and customs regulations applicable to deliveries and other transactions between Partner and Enilive. Partner is liable towards Enilive for such compliance on the part of Partner itself and also by its own buyers, customers and contractual partners.

In particular, Partner shall be responsible for ensuring that all the fiscal, customs and other public approvals required for the delivery or for other transactions between Partner and Enilive are available. If the fiscal treatment of a delivery (e.g. an untaxed delivery or delivery with tax suspension) depends on certain permits being available, Partner shall provide such permits to Enilive in good time before delivery. If the fiscal treatment of a delivery agreed between Enilive and Partner depends on certain actions being performed by Partner and/or by its buyers and customers after completion of delivery (e.g. export of the delivered goods), Partner shall provide Enilive with immediate evidence that such conditions have been met.

If any approvals and/or permits are not granted or are subsequently withdrawn, Partner is obliged to reimburse or indemnify Enilive for any taxes or duties (including relevant ancillary services) incurred or to indemnify Enilive accordingly. The same shall apply if Partner fails to prove to Enilive the conduct required for the tax treatment agreed between Partner and Enilive.

14. Security for Impaired Creditworthiness

(1) Even after conclusion of the contract, if the creditworthiness of Partner deteriorates, Enilive shall be entitled to demand sufficient security to secure the rights accruing to Enilive from the deliveries. If the security is not provided within 1 week of the request, Enilive shall be entitled to refuse to execute the order in question without having to give notice of default or set a period of grace.

(2) In the event of a significant deterioration in the financial circumstances of Partner, Enilive shall also be entitled to demand immediate payment of all other claims against Partner, irrespective of any conflicting payment terms or payment agreements.

15. Retention of Title

(1) Enilive's deliveries remain Enilive's property until payment of all Enilive's claims due to Enilive.

(2) For current accounts, the retention of title shall be deemed to be security for Enilive's claim for the balance due.

(3) Partner may only dispose of the reserved goods in the ordinary course of business, provided Partner is not in default of payments. The goods may not be pledged or granted as security to third parties. In the event of seizure of the goods by a third party, Partner must inform Enilive immediately, and must inform such third party of Enilive's title to the goods. If the goods delivered by Enilive are mixed with other goods, Partner hereby assigns its right of ownership or co-ownership to the mixed goods or new item, and will store them on Enilive's behalf with due commercial diligence. If Partner resells the goods delivered by Enilive, Partner hereby assigns to Enilive its claim to the purchase price and all ancillary obligations, until full settlement of all Enilive's claims.

(4) At Enilive's request, Partner must inform its buyers of the assignment, and must provide Enilive with the documents necessary to enforce the claims. Enilive may also, in the event of cessation of payments by Partner - after giving prior notice and during ordinary business hours - access Partner's premises and request any information that may establish the scope and extent of the reservation of title and take all measures to secure such rights.

(5) If the value of the security provided to Enilive exceeds Enilive's claim by more than 10%, Enilive shall perform a re-assignment at Partner's request. Any extraordinary changes affecting the items which are subject to the reservation of title (fire, theft and similar) shall be reported to Enilive immediately by Partner.

(6) Partner's rights and claims against Enilive may only be transferred to a third party with Enilive's consent.

(7) Any items, which are not sold to Partner, such as hired or loaned equipment, remain Enilive's property and do not form part of the land and buildings (Section 95 of the German Civil Code).

16. Brand Names

Partner may not use Enilive's get-up or brand identity without Enilive's written consent. In the event of unauthorised use by Partner of Enilive's brands or of any other intellectual property rights, Enilive may claim compensation for damages and injunctive relief.

17. Assignment of Contract

In the event of the full or partial transfer of Enilive's business to a third party, Enilive may assign any existing contracts to the new or different company, with all the related rights and obligations. In such a case, Partner has the right to terminate the contract.

18. Health, Safety and Environment, compliance with HSE requirements

(1) Partner acknowledges that Enilive has provided information about the pursuit and achievement of and compliance with legal

requirements on Health, Safety and the Environment (HSE) objectives, and has imposed its own regulations in the form of an HSE policy. The HSE Policy is available for downloading at <https://www.eni.com/de-DE/geschaeftsaktivitaeten/enilive-schmiertechnik-gmbh.html>.

(2) In the context of the contract, Partner is responsible for assuring compliance with the applicable laws, regulations, technical standards and codes of conduct concerning HSE, and with the technical, medical and social regulations concerning employment and rules on safety in the workplace, specifically the updated versions of the Minimum Wages Act (MiLOG), all trading and fire safety requirements, environmental standards, in particular emissions, ground and water and activity-specific regulations, all the applicable EU legislation (e.g. the REACH Regulation (EC) No. 1907/2006), all DIN-, ISO- and EN standards, the VDI-, VDE- and VDS requirements, the manufacturers' instructions and German Social Accident Insurance regulations and requirements (HSE Requirements). Partner must also ensure that the HSE Requirements are met by all employees, contractors, subcontractors and by any other person whose services are used by Partner.

(3) Partner or the carriers and freight forwarders used by Partner will accept, observe and comply, at the loading points, with the obligations of the buyer for the purposes of the GGVSEB, ADR/RID regulations, the legal requirements of the loading points and the instructions of the personnel at the loading points.

19. Corporate Responsibility for the Conduct of Employees; Anti-Corruption

Partner declares that he/she has read and is aware of: (a) the Eni Code of Ethics ; (b) the general standards of transparency of the Model 231 under Italian Legislative Decree 231/2001 and of the Compliance Models; (c) Eni's "Anti-Corruption" ECG Policy, including the references to whistleblowing channels; (d) the "Respect for Human Rights in Eni" Policy and the "Zero Tolerance against Violence and Harassment at Work" Policy adopted by Enilive and available on the website <https://www.eni.com/de-DE/geschaeftsaktivitaeten.html>.

Partner declares that it has no conflict of interest with respect to the execution of this contract and undertakes to promptly inform Enilive in the event that such a situation should arise during execution thereof.

With reference to this Contract, Partner:

- declares that it has complied with and undertakes to comply with the regulations on anti-corruption, anti-money laundering, as well as on corporate administrative liability, health and safety of workers, environmental protection and anti-terrorism;
- undertakes, in addition, to respect Human Rights, meaning (i) the principles contained in applicable national and international laws and instruments, guidelines and best practices aimed at preventing human rights violations, including the United Nations Guiding Principles on Business and Human Rights, the OECD Guidelines for Multinational Enterprises and the ILO Declaration on Fundamental Principles and Rights at Work; (ii) the provisions of applicable law regulations concerning terms and conditions of employment, as well as (iii) the national and international regulations against the trade in and trafficking of human beings, immigration regulations and residence permit

requirements for citizens of third countries and laws against forced labour;

- undertakes to promptly notify Enilive of any suspected or confirmed violations of anti-corruption, anti-money laundering, corporate administrative liability and/or Human Rights law of which it becomes aware (except for those that may be considered as subject to legal privilege).

The Parties agree that any failure by Partner to comply with the statements, guarantees and obligations set out in this Article shall constitute a material breach and shall entitle Enilive to notify in writing Partner of this breach, providing reasonable detail and requiring the situation to be remedied within 30 (thirty) calendar days. If this period expires unsuccessfully, or if the said breach cannot be remedied, Enilive shall have the right to terminate the Contract, upon notice to Partner by registered letter or by de-mail (registered email), containing a summary of the factual circumstances or judicial proceedings relating to the said breach and the intention of Enilive to apply this clause, without prejudice to any other remedy provided by law.

20. Sanctions Clause

Notwithstanding anything to the contrary elsewhere in the contract, neither Party shall be obliged to perform any obligation otherwise required by the contract if this would be in violation of, inconsistent with, or expose such Party to the risk of punitive measures of any nature under any laws, rules, regulations, ordinances and directives, adopted by the United Nations, the European Union, the United States, or any other relevant authority that could be applicable to the Parties, relating to economic and financial sanctions and/or export control restrictions (hereinafter "Sanctions").

Partner must comply with all applicable Sanctions in the performance of the contract and, to this extent, Partner will not export, re-export, supply, sell, resell any goods furnished by Enilive to any person (i) listed in any sanctions-related list of designated persons maintained by the United Nations, the European Union, or the United States, or otherwise target of Sanctions and Trade Control Laws unless allowed or authorized under Sanctions, or (ii) operating, organized, located, or resident in a country or territory which is itself the subject or target of comprehensive Sanctions (currently Cuba, Iran, North Korea, Syria, Venezuela, Russia, Belarus and the following territories of Ukraine: Crimea, Luhansk, Donetsk, Kherson and Zaporizhzhia).

In the event that (i) Partner breaches any provision of this clause, or (ii) Partner violates any Sanctions, or (iii) any performance by Enilive would be in violation of, inconsistent with, or expose Enilive to the risk of punitive measures of any nature under Sanctions, Enilive shall have the right to unilaterally and immediately terminate a contract, in each case without any liability whatsoever. Further, Partner will fully indemnify Enilive and its representatives against any damages, costs, losses, liabilities, and/or expenses (including attorneys' fees and expenses) arising out of Partner's non-compliance with this clause, including Partner's violation of any Sanctions.

21. Personal Data Protection

The contracting Parties undertake to operate as independent data controllers in full compliance with the Regulation (EU) 2016/679 ("GDPR") and, where applicable, other regulations, such as the

German Federal Data Protection Act (Bundesdatenschutzgesetz, BDSG) in relation to the processing of personal data connected with the execution and performance of the agreement.

In accordance with Art. 13, 14 and 21 GDPR, the Partner is hereby informed that the data required for the execution of the agreement, such as invoicing and order processing under the agreement, will be processed and stored by Enilive. Furthermore, the Partner is informed that the data may also be forwarded to credit agencies and other third parties in the course of processing of the agreement. Further information on data protection is available on Enilive's website at: <https://www.eni.com/de-DE/geschaeftsaktivitaeten/enilive-schmiertechnik-gmbh.html>

22. Place of Performance and Place of Jurisdiction

Regardless of the delivery point, the place of performance for payments is Würzburg. The place of jurisdiction is, at Enilive's discretion, either Enilive's headquarters or the head office of Partner.

23. Governing Law

All Enilive's legal relations with Partner are governed exclusively by German law. The application of the UN Sales Convention is excluded.
