Health, Safety and Environment Mission Statement

Eni USA R&M Co.Inc. is committed to managing health, safety and environmental (HSE) matters as an integral part of our business. It is our policy to assure the HSE integrity of our processes and facilities at all times and in all places. We will do so by implementing and updating the HSE Integrated Management System in accordance to Eni MSGs, Eni USA Organizational Management and Control Model, Eni Code of Ethics and further, by adhering to the following principles:

Compliance

We will comply with all applicable laws, regulations, and standards and will implement programs and procedures to insure compliance. Compliance with HSE standards will be a key ingredient in training, performance reviews and incentives to employees.

Prevention

We will employ management systems and procedures designed to prevent activities and/or conditions that pose a threat to human health, safety or the environment. We will strive to minimize risk and protect our employees by employing appropriate technologies and operating procedures, as well as striving to be prepared for emergencies.

We will strive to prevent pollution of the atmosphere, land and water. We will make efforts to minimize the amount and toxicity of waste generated.

Communication

We will communicate our commitment to HSE to our employees, vendors and customers. We will solicit their participation in meeting our HSE goal, and we will insure that a verifiable commitment to HSE standards plays a major role in our contractor selection process.

Continuous Improvement

We will seek opportunities to continuously improve the effectiveness of the Integrated Management System, preservenatural resources, reduce energy consumption and improve our adherence to these principles.

Fair cooperation is a key factor of success and all employees are supposed to cooperate in good faith to provided and maintain a safe and healthy work environment, in accordance with applicable policies, sound industry standards, and any relevant legislative requirements.

Valter D'Angeli
President and CEO
