

# Eni, la storia di un'impresa

Passato, presente e futuro del cane a sei zampe

*(Eni, the story of an enterprise. Past, present and future of the six-legged dog)*

## Claudio Descalzi

Chief Executive Officer  
from 2014.

A company man, in Eni since 1981, Descalzi finds himself operating in extremely complex scenarios such as the collapse of oil prices, the major issue of climate change, the pandemic. Scenarios to which he responds by revolutionising the company strategy on the basis of two main objectives: decarbonisation and energy diversification, combined with a close attention to people and teamwork, as well as the company's strong Italian identity.
