

# Eni, la storia di un'impresa

Passato, presente e futuro del cane a sei zampe

*(Eni, the story of an enterprise. Past, present and future of the six-legged dog)*

## Paolo Scaroni

Chief Executive Officer  
from 2005 to 2014.

The only manager with no previous experience in the company, Paolo Scaroni brings to Eni an organisational model with a strong central structure, a point of reference for the group's multiple companies. Brand unification (with Eni integrating Agip) becomes the expression of corporate integration. During his three terms in office, he oversaw some complex international events, including the death of Gaddafi, and was confronted with the choices imposed by the energy transition, always having clear the idea that transition is a slow and complex process, in which an ideological approach certainly does not help.
